Available for internship: December 2026 – March 2027

Business Analytics student (WAM 89/100) specialising in consumer and market insights — skilled at turning large, messy datasets into clear, decision-ready recommendations. Experience spans structured fieldwork research, competitor and pricing analysis, and end-to-end data science projects, backed by strong public speaking and stakeholder communication.

EDUCATION

Bachelor of Business Analytics (Marketing Major) — La Trobe University, Melbourne

Expected Aug 2027

- WAM 89/100 (High Distinction); Provost's Commendation 2025 for Academic Excellence (First Class Honours equivalent)
- East Asia Student Ambassador Scholarship (50%); IELTS 8.0
- Relevant coursework: Predictive Analytics (ML), Data Engineering & Python, Social Media & Visualisation (Tableau/SQL), Customer Analytics, Market Research, Generative AI for Business

EXPERIENCE

Market Research Face-to-Face Interviewer — EY Studio+ (EY Sweeney)

Mar 2026 – Present

- Collected primary market research data through face-to-face interviews and observational fieldwork for client projects, including a passenger tap-on/tap-off study for PTV, maintaining zero data errors.
- Captured and recorded responses using digital survey tools, upholding data quality, consistency and integrity throughout collection.
- Followed structured research procedures to minimise collection error, flagging unusual or inconsistent data for review.

Strategy Consultant — Study Australia Industry Experience Program

Dec 2025

- Delivered a competitor analysis across 4 direct and 2 tier-2 competitors for a premium pet-care start-up, using a 7-metric evaluation framework; client confirmed findings directly shaped the company's competitive strategy.
- Proposed a 3-tier pricing/membership strategy aligned with the client's own financial modelling, validating the mid-tier as the primary revenue driver.
- Synthesised industry reports, datasets and survey data (Excel, Microsoft Access) to identify market opportunities, in a 6-member consulting-style team.

Business Analyst Intern — Darling Daughters

Jul 2026 – Present

- Conducted market and competitor analysis across aged care, NDIS, SIL and SDA services to identify target segments and growth opportunities.
- Analysed business processes and cost drivers to support revenue growth and operational decision-making.
- Set data-driven growth targets across SEO, social engagement and referral partnerships to guide marketing strategy.

PROJECTS

Diabetes Risk Prediction *Orange, Python*

- Built an end-to-end ML classification workflow on 16,360 healthcare records (EDA, cleaning, imputation, feature selection); Logistic Regression achieved 0.833 AUC / 75.3% accuracy.
- Ran 5-fold Grid Search tuning and identified 10 key predictors via Information Gain; scored 100/100, ranked 1st in cohort.

NYC Mobility Data Pipeline & Intervention Analysis *Python, SQL, DuckDB, GeoPandas*

- Engineered a reproducible Python-SQL pipeline integrating 16.8M+ transit records (taxi, subway, bus, Citi Bike) for extraction, cleaning and geospatial enrichment.
- Built a taxi-zone prioritisation framework with targeted recommendations; scored 98/100 and selected as a student exemplar.

Melbourne Housing Opportunity Dashboard *Tableau*

- Designed an interactive Tableau story across 13,580 property transactions in 314 suburbs, engineering value-vs-activity metrics to produce a 20-suburb priority shortlist.

LEADERSHIP & ACTIVITIES

- Benetas x La Trobe Care Economy Innovation Sprint — analysed client data to design an AI-driven staffing solution; awarded Best Public Speaker among all teams.
- International Student Ambassador, City of Melbourne — gathered student feedback to inform inclusive, student-centred program design.
- East Asia Student Ambassador, La Trobe University — supported international recruitment outreach and digital content creation (2024–Present).

SKILLS & CERTIFICATIONS

Data & Technical: Excel, SQL, Python, Power BI, Tableau, Microsoft Office

AI & Automation: Prompt Engineering, Generative AI Workflow Design, Chatbot Building

Certifications: Google Data Analytics; Meta Marketing Analytics Foundation; Certiport IT Specialist – Python; Microsoft Office Specialist – Excel

Honours: McKinsey Forward Program; L'Oréal Brand Storm 2026 Participant

Languages: Vietnamese (native), English (IELTS 8.0)
